

2022 Healthcare Recognition Dates: Everything You Need to Know

written by HR Banana
September 1, 2021

It is the time of year that HR professionals start planning for 2022. Savvy HR leaders know that recognition is important enough that early planning and budgeting are important.

This is the most comprehensive list that we have developed to date. Many general health awareness dates have been included for two reasons: HR professionals use them in employee wellness communications, and I have discovered many healthcare marketing departments are using our list as well.

Since everybody gets recognized by someone at some point, I am sure there are omissions. Contact me and we will verify your submission and add it to the list.

January

- National Blood Donor Month
- Cervical Cancer Awareness Month
- National Eye Care Month
